

ACTIV PRO PLATE CLEANER GP

Product Applications

Plate Cleaner GP is a premium, general-purpose, emulsion plate cleaner and conditioner suitable for CTP, pre-sensitized and conventional plates.

Features & Benefits

- Rapidly removes scum / ink from the plates. Cleans both, image and non-image areas.
- Stable emulsion
- Good ink solvency for fast ink removal and cleaning of even dried ink.
- Sufficiently thick and viscous.
- Does not attack image area during the cleaning process when properly buffed down.
- Desensitizes the cleaned non-image area and prevents further scum.
- Easily removed with water.

Instructions for use :

Plate Cleaner Gp can be used on CTP, pre-sensitized and conventional plates for general-purpose cleaning or for removing scum. It is compatible for use with non-sensitized plates as well. Shake the bottle well before use, and then apply the solution with a sponge in the affected areas.

Wash off the residue with a wet sponge and continue printing. Plate Cleaner GP can be used for cleaning plates prior to storage procedure and during routine plate cleaning operations. For best results, use on wet plate.

Storage, Handling & Packaging

- **Precautions :** Keep away from sources of heat, sparks, open flames and static electricity charges. Plate Cleaner GP should not be left on the image areas without buffing down for prolonged periods. Post wash-up with water ensures best results.
- **Storage & Handling :** Store at moderate temperatures in a dry, well-ventilated area. Keep away from sources of heat, sparks, open flames and static electricity. Keep the containers tightly closed. The use of gloves is recommended.
- **Packing :** 5 Litres
- **MSDS (available on request) before using the product.**
- **Do contact us for trials and further details.**
